J. Edgar Hoover Federal Bureau of Investigation Washington, D.C.

Dear Mr. Hoover:

Upon reading None Dare Call it Treason, by John A. Stormer, I find in Chapter 7, Subverting Our Religious Heritage, page 127, a statement which reads as follows:

The National Council of Churches, its subordinate organizations, and the leaders of many of its affiliated denominations and their publications consistently parallel or follow the Communist Party, line, as exposed by J. Edgar Hoover.

This paragraph is followed by a footnoted reference to The Communist Party Line, J. Edgar Hoover, SISS, 1961. Do you have a copy of this available for reference that you could send to us? I am researching several of Mr. Stormers' references to dig down to the actual facts.

I would appreciate any help you can give me on this matter.

Re: " NONE DARE CALL IT TREASON"
By John A. Stormer

Gentlemen:

The undersigned was recently given a copy of the above described paper back book by a neighbor who suggested that I should read the book and then pass it along to one of my friends. Further, I was told that I would find the book very enlightening, interesting and frightening.

To put it very mildly, that would be my description of the book.

Prior to passing the book along to one of my friends, I felt duty bound to make inquiries concerning the material set forth in the book together with the background of it's author.

I do not know whether your office has a section which reviews material such as the above, but it you do, I would appreciate receiving a copy of the review from you. Further, if you can furnish me with any information concerning the background of the author, I would again be most appreciative.

If however, there is another department in Washington which has this responsibility, I would be most pleased if you would foward this letter on to the proper department.

In the past, I have bought, read and passed along many of the books writen by Mr. Hoover. However, before doing the same with the above mentioned book, I wanted to be certain that the material in this book and its author we of the same caliber.

Needless to say, I am most anxious to receive any of the above requested information as soon as possibles 5 1964

Thank you very much for your assistance in the above matter.

RÉC-65/2-109/12/56 August 6, 1964 HILL Dear Your letter of August 2nd has been received. While I would like to be of service to you, information in the liles. of the FBI is confidential in accordance with regulations of the Department & Justice. Therefore. I am unable to comment as you requested concerning the book, "None Dare Call It Treason" or its author, John Stormer. The Communist Party in this country has attempted to infiltrate and subvert every segment of our society. However, the Party's efforts are being thwarted by the FBI's internal security programs, by investigation, arrest and prosecution of Party functionaries, and by widespread, intelligent public opposition to the communist philosophy. These achievements are being accomplished through orderly, legal procedures. Despite the above, the world communist conspiracy and its advocates in the United States continue to operate against the welfare of our country. It is important that our citizens educate themselves concerning the true nature of this insidious philosophy in order that they will be able to resist its eroding influence. At the same time, opposition to communism must be careful and constructive, and kept within the due process of law. It is not enough to be merely against communism. We should exhibit in positive ways the superiority of our form of government over any foreign ideology. Enclosed is literature I trust you will find of interest. You may also want to refer to my books, "Masters of Deceit" and "A Study of Communism," which were written to help Americans gain an insight into the communist strategy and tactics, both in this country and abroad. Copies may be available at your Tolson local library. Sincerely yours See NOTE and ENCLOSURES page 2.

Sir:

I would appreciate your confirmation of the truth or denial of the appropriateness and factual content of a book None Dare Call It Treason, by John Stormer?

MMV

If you believe that what he states is basically sound, and that civilian participation is actively called for, where, and in what capacity, may I be of service to you and my country? Are the organizations he recommends of value to you and your organization, or is there perhaps another way of greater value?

Mr. Stormer says that the record is there for all to peruse. But evaluation must accompany perusal to be worthwhile. And, because of a lack of cogent information, my evaluation would not be qualified I fear. For all I know, these kaleidosoopic events may not be so fateful as they sound and merely a promotional campaign to strike distrust in the government to simpletons like me.

However, if you confirm the validity of Mr. Stormer, I am fearful for my country's welfare and willing to work for the continued fulfillment of our wonderful form of government under the Constitution.

REC 1 162 - 189421 - 58 Dear Your letter of August 10th has been received?

In response to your inquiry regarding the Federation of Young Republicans, the FBI is strictly an investigative agency of the Federal Government and, as such, does not make evaluations nor draw conclusions as to the character or integrity of any organization, publication or individual. Please do not infer from my inability to be of aid either that we do or do not have data regarding the group in question.

It is always encouraging to hear from citizens who recognize the menace communism presents to our country today, and I am enclosing publications on this subject I hope you find of interest. You may also wish to refer to my books, "Masters of Deceit" and 'A Study of Communism." The former was written with the hope that it would help Americans gain an insight into the true nature of the communist conspiracy in this country. The latter contains an analysis of international communist practices and contrasts totalitarian methods with life in a free country. These books may be available at your local library.

Dear Mr. Hoover:

I am directing this inquiry to you as the most objective and knowledgeable expert on the subject of Communism in this country.

For too many years I have suffered from a growing apprehension that the Communists or Socialists of anti-American free enterprisers living in this country are perhaps as great a threat to our security as those inside the Iron Curtain.

It is extremely difficult for me with limited knowledge of the subject and total inability to conduct personal research to evaluate some of the information regarding this subject that has fallen in my hands. I have recently read a book entitled, "None Dare Call it Treason" by John A. Stormer, published by the Liberty Bell Press, Florissant, Missouri. It strikes me that the "documented" facts contained therein constitute a reasonable summary of the information encountered from dozens of sources in the past 20 years.

I would be very grateful if you would see fit to render your opinion as to whether or not most of the statements made by Mr. Stormer are of sufficient accuracy to base a reasonable judgment as to the security status of our national government.

Dear Mr. Hoover:

.,

I have just finished reading None Dare Call It Treason by John A. Stormer.

Last night I heard a heated discussion on the radio as to whether or not the documentation was correct. When the author refers the reader to quotes from hearings and testimonies before the HCUA can they be misconstrued or slanted.

You have undoubtedly read this much discussed book and I would appreciate it if you would give me an opinion as to it's accuracy.

We have a large group here at "ake Tahoe who will be anxious for your reply.

Hon. John Sparkman Senate Office Building Washington, D.C.

Dear Senator,

I have just finished reading a hook entitled "None Dare Call It Treason," by John A. Stormer. I am certain you are acquainted with the work, but I would like to ask you specifically about one paragraph on page 196:

"For over 20 years, warning after warning has been ignored. In 1946, for example, President Harry Truman promoted Harry Dexter white, the assistant secretary of the Treasury, to a high post on the International Monetary Fund, after J. Edgar Hoover personally had White's complete record as a long-time communist agent delivered to the White House".

I wrote to you once before concerning an article that Mr. Jim Bishop wrote about communists in Washington, and in your reply, you told me that if Mr. Bishop had any information about actualy communist infiltration in our government, he should refer it to the FBI.

According to Mr. Stormer, the FBI knew about White, as I an certain it knows about other communists now currently in governmental capacities, and I am certain also that the dossiers are available to you and any other member of Congress.

What I want to know is why White wasn't tried for treason instead of honored with a high governmental position.

Dear Mr. Hoover,

Many people in our area have been upset by charges of Communist subversion in the churches, especially in the National Council of Churches. In a book now receiving wide-spread(attention, entitled "None Dare Call It Treason," by John A. Stormer (Liberty Bell Press, Florissant, Missouri), these charges are again made, coupled with allegations about the loyalty of the leaders of both political parties, the press, radio and television, education, etc.

Since your name is used so frequently with the implication that you would be favorably disposed to such a point of view, some statement of your findings, particularly in the area of subversion in the churches, might be quite helpful in answering these damaging charges.

Also, may I inquire into the background of Assistant Director William F. Sullivan's speech on Oct. 1961 to the Highland Park Methodist Church of Ballas, Texas. I would appreciate a copy of this speech if available and any other materials which are pertinent to the issue.

These charges have many people upset and dangerously demoralize the church in a time when clear thinking and positive programs are so desperately needed. Your response will be greatly appreciated.

I am reassured when I read letters such as yours expressing an awareness of the problems menacing our country's future. Acknowledging the danger posed by the communist conspiracy is one great step toward protecting our national traditions. While I would like to be of assistance to you regarding your inquiry concerning the book, "None Dare Call It Treason," the FBI is strictly an investigative agency of the Federal Government and neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. Enclosed is some material on the general topic of communism which you may find of interest. Perhaps you may also wish to refer to my books, "Masters of Deceit" and "A Study of Communism." The former was written with the hope that it would help Americans gain an insight into the true nature of the communist conspiracy in this country. The latter contains an analysis of international communist practices and contrasts totalitarian methods with life in a free country. Some days ago a friend handed me a story by an author, John A. Stormer. The title of this book is "None Dare Call It Treason". It is published by, Liberty Bell Press, Florissant, Missouri.

This story has caused me to do a lot of thinking along the lines of the growth of communism in our United States. The author makes so many references to you and your warnings of danger from communism within that I felt it necessary to write you and secure first hand information on this author before making any efforts to further this publication.

Please be kind enough to advise if this is the best way for me to further the fight against communism. I can not do a lot but it will be very gratifying to know that the little I offer will be in the best direction and it is my thought that you can best direct me.

Dear Mr. Hoover,

A book by John A. Stormer called "None Dare Call It Treason" has come into my hands and has caused me considerable concern.

In Chapter VII heading "Subverting Our Religious Heritage" on page 127 the first paragraph begins as follows: "What is the net result? The National Council of Churches, its subordinate organizations, and the leaders of many of its affiliated denominations and their publications consistently parallel or follow the Communist Party line, as exposed by J. Edgar Hoover."

This is obviously a conclusion shared by the author, but it is not clear whether or not it is a fair summary of your own conclusions.

Whether or not you can give my query your personal attention, any information that can be furnished me pertaining to your investigations and findings would be most welcome and appreciated

Footnote 17 appended to the above quoted statement refers to "The Communist Party Line, J. Edgar Hoover, SISS, 1961" as authority therefor. Is this an abbreviation for Senate Internal Security Sub-Committee hearings, and, if so, will you direct me as to how to obtain the proper record or portions thereof?

Very truly yours.

## "NONE DARE CALL IT TREASON" BOOK BY JOHN A STORMER — SUMMARY

KOFEA

"None Dare Call It Treason" was authored by
John A. Stormer and published by the Liberty Bell Press, Post Office
Box 32, Florissant, Missouri, in 1964. This is a 236-page paperback
book comprised of "documented" facts to prove that, since World War I,
the American people have been almost irrevocably outwitted by communistand socialist-minded individuals who have pushed themselves into positions
of influence. The book is a right-wing indictment of American leaders in
Government, religion, education, communications media, psychiatry,
business, politics, economics and labor.

According to Stormer, the Roosevelt, Truman, Eisenhower, Kennedy and Johnson Administrations have retreated so far in the face of communism that men such as Owen Lattimore, Alger Hiss, John Stewart Service, Harry Dexter White and others have been able to contort American national and international policy into a form advantageous only to the Soviet Union.

Stormer claims that leaders in the National Education Association and authors of textbooks have continually tried to orientate youthful minds toward a new socialist world. Through a rewriting and reorientation of history, patriotic figures and patriotism itself have been brought into disrepute. He claims that through the schools, churches, parent-teacher's associations, changes in mental health legislation, and indiscriminate branding of patriotic Americans, such as General Edwin Walker, as mentally ill, the warped practitioners work to create the amoral mind which will accept the one-world socialistic government. All who oppose the communist trend are subjected, as was Senator Joseph McCarthy, to ridicule and ruin.

ENCLOSURE

A typical example of the author's extreme views is his allegation concerning the Warren Commission. He claims that three days Tolson Belmont . after the official communist publication, "The Worker," recommended the Mohr . Casper appointment of a commission under Chief Justice Earl Warren to investigate Callahan the assassination of President Kennedy, President Johnson appointed the Conrad DeLoach Warren Commission and so loaded it with "liberals" as to "build suspicion Evans . Stormer or the Liberty Bell Publishers; however, it has been reported that Stormer is a member of the John Birch Society. In the book, John Stormer is identified as a former editor and general manager of a leading electrical magazine and presently Chairman of the Missouri Federation of Young Republicans and a member of the Republican State Committee of Missouri. He is described as a native of Altoona, Pennsylvania, who attended Pennsylvania State University and graduated from California's San Jose State College in 1954, after Korean War service as an Air Force historian. He is said to be a member of the Sigma Delta Chi, a professional journalism society, and has received awards for anti-communism educational activities from such organizations as Rotary and the Knights of Columbus. The book indicated Stormer started an intensive study of communism about four years ago.

Dear Sir:

My husband and I have great respect for your opinions and the principles you have upheld in your conduct of "your" department of our government. We are reading a copy of the book "NONE DARE CALL IT TREASON" by John A. Stormer (1964; Liberty Bell Press, Box 32, Florissant, Missouri). To us it appears to the have the answer, of the least a big part of the answer, to the question, "Why are we losing the Cold War?". But we also realize that elaborate arguments such as this can be misleading if quotes are consistently used out of context, and their original meaning done violence to. Would you please give us your opinion as to the reliability of Mr. Stormer's work, and the value of wide dissemination of his book? We are Christian missionaries and would value your thoughts on this before we take any concerted action.

ackall

The book appears to us to be a bringing together of the many vague suspicions and wonderings and doubts that have come to us in recent years over national and international affairs. A strong personal faith in God through Jesus Christ is vital, but an understanding of the means by which we are being subverted from within is also greatly needed. If Stormer gives this, we want to take action.

Dear Mr. Hoover:

I feel certain that you are familiar with the book, "None Dare Call it Treason", by John A. Stormer, published by Liberty Bell Press.

You are oft quoted in the book; you are held in such high regard by almost all Americans in the fight against communism; and your own book on the subject has meant so much to me personally in my evaluation of the problem, that I feel constrained to write to you for an opinion.

There is such a controversy raging today, with charges and countercharges being hurled from all sides, that it is extremely difficult for an average citizen such as I, who is also called to a aposition of leadership and responsibility in the church and community, to evaluate many of these things.

Mr. Stormer does not appear to me to be an ultra-radical rightest who is simply hurling unfounded charges about in an effort to create controversy. At first and second reading, I am impressed with his documentation, and in his efforts to be fair to all concerned. If. however, what he says is essentially true, we as Americans have been sound asleep to the progress of communism in our nation, let alone the world at large.

Would you please comment to me as to whether or not what he says in substance is true? I will appreciate an answer to this question as well as any other comments you might have about this book.

This book quotes you a number of times and its revelations have left me deeply disturbed, I am writing to you to inquire if you have read it, and if so, what your personal impressions are of the facts that it purports to show.

I find it hard to believe that this country has gone so far down the road to communism, or one world government. However, the book appears to be very well documented, and if it is in fact the truth, ever citizen should be alerted to the danger. On the other hand, I do not wish to actively disseminate this book to other people unless it is essentially factual.

Dear Sir:

Are you familiar with John A. Stormer's book, "None Dare Call It Treason," dealing with the great advance of communism in this country? The minister of my church (Methodist) has challenged me to write you for your evaluation of it, as we had a rather heated discussion about it.

He vehemently denounced the book as "poison," claiming that the quotations used are taken out of context and so have no real meaning. He also denounced the work, findings, and methods of the House Committee on Un-American Activities, along with the excerpts from many of its reports which the book quotes.

I disagree with him. To me, the book is an excellent documentation of a very disturbing trend to the far left which I have been watching for the past 30 years, a trend which apparently has been much accelerated in recent years. I am glad to see the above book circulating.

I would certainly appreciate a brief word from you as to whether you consider this book an accurate picture of the situation. Also, may I have your permission to show your reply to others? I know many skeptics who do not believe the situation is as bad as the book indicates. Too many seem to take the attitude that "it can't happen here."

Dear		•,

Your letter of August 14th has been received.

With respect to your inquiries, information contained in the files of the FBI must be maintained as confidential in accordance with regulations of the Department of Justice and is available for official use only. Further, it is contrary to my policy to comment on material not prepared by this Bureau or by me. I regret I am unable to be of help in this instance but trust you will understand the necessary reasons. It is hoped you will not infer either that we do or do not have data in our files relating to the book, "None Dare Call It Treason," or its author."

This Bureau does not have a list such as you mentioned available for distribution. I am, however, enclosing some material which includes suggestions all of us can use in combating the menace of communism. Perhaps you may also wish to read my books, "Masters of Deceit" and "A Study of Communism." These were written in order to help Americans gain an insight into the strategy and tactics of communists, both in this country and abroad. Copies may be available in your local library.

Dear Mr. Hoover,

I have just been reading the book entitled "None Dare Call It Treason" by John A. Stormer! I must say it is a shocker, I can hardly believe what is contained in its pages. In fact a lot of people I talk to will not believe it. You are probably wondering why I am writing this letter. I have some requests I would like you to fulfill if it is possible??

No 1. If this book is true and accurate, please write me a letter stating that fact so I may show it to people to back up the book.

No. 2 If there is anything else that I can do to fight Communism, except what is detailed in the book, please let me know. I am a Navy Vet of World War II and a Baptist Minister, and I certainly don't wish to see this country fall.

No. 3 I would like a list of the names of any Communists in the following Organizations:

> Arizona Convention of American Baptist Churches Arizona Baptist Convention (Conservative) 🔞 Arizona Southern Baptist Convention The Nationwide American Baptist Convention The Nationwide Conservative Baptist Convention The NationWide Southern Baptist Convention AUG 25 1964 Also if we have any schools in these conventions with

communist teachers, please send names of the schools and the

teachers.

Dear Mr. Hoover;

All true Americans are concerned over the spread of Communism in this country and throughout the world. Our people are confused and frightened by rumors. Many of which are true. Others may be false.

I have just read John A. Stormer's book entitled "None Dare Call It Treason." I was shocked. Of course, I knew part of the story, but not in its entirety. I feel this is a true document on Communism. I would like your opinion on this book. Is it a book to recommend to my friends? I do not wish to alarm anyone unnecessarly.

I feel so helpless in having to stand and see Communism take over many of the things I cherish. Is there anyway I can be of assistance?

Dear Sir:

Several months ago I read the book by John Stormer entittled "None Dare Call It Treason" & have bought additional books to give other people to read. Since the book was so well documented I had no basis to disbelled it, however some few who read it do not beleave these things can happen in the United States.

If you have read the book or have had a report on it would it be possible to let me know if the information in it is correct?

I do not want to pass the book on if the information in incorrect but if it is I feel it my duty as an American to help inform others of cominism.

#### Gentlemen:

I have just read a book "None Dare Call It Treason", by John A. Stormer, which presents a severe indictment of United States policies regarding foreign policy, communistic infiltration into government, news media, et cetera. This book was first published by Liberty Bell Press, P.O. Box 32. Florissant, Missouri in February 1964, and again in April 1964.

The charges Mr. Stormer makes are severe in their implications of communist influence in education, religion, labor, news media, government, economics, world power, and the basic precepts upon which the United States of America was created.

I am interested in knowing if investigations substantiate the allegations made in the book. I am further interested in any information concerning Mr. Stormer, Liberty Bell Press, the John Birch Society, the Americans for Democratic Action, the Council on Foreign Relations, Institute of Pacific Relations, and the Fabian Society which you may have available.

I am also interested in statements made in the book concerning handling of the Bay of Pigs Invasion, the Hungarian Revolt, treaties and their effect or precedent over the Constitution, the direct influence of the United Nations (UNESCO) over what is taught in the School of the United States, communist influence in the various news media, labor unions and literature

REC- 57. ,I realize this is quite an order for information. any information you can furnish me would be greatly appreciated.

Mr. J. Edgar Hoover, Director of the Federal Bureau of Investigation, Washington, D. C.

Dear Mr. Hoover:

I have been reading the book written by John A. Stormer, entitled "None Dare Call It Treason". It is a vivid expose of the workings of the Communists -- in all of its ugly reality.

You are mentioned many times in this book, and always with a great deal of esteem on the part of the author. When I read about the McCarthy story it brought back to my mind the sordid and base way that he was treated. I remember writing Senator Carlson, (R.Kansas) telling him that if he voted to Gensured McCarthy I would never vote for him again. He voted for the censure, and I have never voted for him since.

Mr. Hoover, when the entire government from the White House on down is infiltrated with communists, and when you see the pattern of things shaping up just the way that Lenin and Stalin said they would, and when you see the mountry on the very verge of bankruptcy due to the low gold reserve, is it wrong to feel that the John Birch Society is helping to protect our American Heritage? How about the Minutemen? They kansas City Star has run four long articles on the Minutemen. If the Commies try to take over some time, wont we thank God for men like that? What do you think of them, candidly? I'll appreciate your frank assessment of them.

Mr. Hoover, may I very humbly say THANKYOU to you for what you have been-what you stand for--- and the trust that we can put in you. The best way I can think of to express it more clearly, is to say, Thank God for Men like you have the say.

rely and gratefully yours.

I have just finished reading a book, None Dare It Treason, written by John Al Stormer and published by the Liberty Bell Press, Florissant, Missouri.

ms.e

I will assume that the Bureau is familiar with this book as Director Höover is mentioned several times.

I am aggreat admirer of Director Hoover and he has my complete trust. Consequently, I have read his works and following his advice, I have tried to learn as much as possible about Communism and in particular the methods employed by the Party in the United States.

I am aware that one of their objectives is to undermine confidence in the national government. That is what disturbs me about this book. Taken at face value, this book is in my opinion, a condemnation of our national leaders, past and present.

Furthermore, the author employs many of the same devices that the Party uses. Nothing in this book is original. People who are not fully informed could be very disturbed by this book. This has already happened in my locality.

As an interested citizen, I request with utmost sincerity, a report on this man and a opinion of this publication.

Dear Mr. Hoover:

I've just finished reading "None May Call It Treason" by John Stormer, published by Liberty Bell Press.

If it is a substantially correct statement of fact, we are in greater jeopardy than I thought.

I'd like to buy and circulate many copies of this book-if you can give it a clean bill of health.

Your early comments will be appreciated.

JH 10-1

I am writting for information in regards to a book written by John A. Stormer called "None Dare Call it Treason." I am wondering how Mr. Stormer stands with your organization?

Since this book has a great deal of distrubing infomation in it (if true) and, since it has created quite a up surge of interest in the area of communism and government I am quite conserned as to the reputation of the people behind it.

Any information you can forward me about the book or Mr. Stormer would be greatly appreciated.

Also I would like to know if there is any special reason why this book is being sold by pravite people instead of across the counter of stores?

Thank you in advance for your information.

Dear Mr. Hoover,

John Stormer

I have read several books & I am now reading None Dare Call It Treason.

All of these books speak highly of you, the F. B. I., & the work you are doing in fighting the Communists.

In reading these books I know that millions of Americans listento & have a great respect in what you say.

It is my humble opinion that if you could in you heart, and with the integrity of your office, endorse Senator Barry Goldwater for the Office of the President of the United States, it would make a great many people think & help him win the election in November.

I know this would bring great rebuffs from the liberal press but when Senator Goldwater wins & the Communist intergration is stopped the people who helped him win can be proud they did.

Dear Mr. Hoover:

I have just completed reading the paperback book, None Dare Call It Treason by John A. Stormer, published by Liberty Bell Press, P.O. Box 32, Florissant, Missouri.

Since this book has been widely circulated and read in our community, I have tried to get some information on the author and the authenticity of the book, but have been unable to do so.

I am a teacher in the elementary grades so am naturally concerned about statements made in this book concerning the National Education Association, which I am required to join, and certain publishers of textbooks that are used in our school system.

I had a rude awakening this summer during attendance at summer school when I learned that our former college president was forced to resign because of the fact that a minority group of Communists and atheists made it so miserable for him. This incident hit hard because it was my university.

I would appreciate any information you could give me regarding the author and the book.

Mr. J. Edgar Hoover F.B.I. Washington, D. C.

Dear Mr. Hoover:

I, as well as some of my friends, are much disturbed by a book currently on the market entitled "None Dare Call It Treason." It was written by a young Replublican from Missouri, whose name I cannot give as my co-y is in the hands of friends.

This book tells of an organization of prominent men in the United States who are members of an organization called "The Council of Foreign Relations" (CFR) who are purportedly running the government. These men take part in both administrations, like the Dulles brothers Henry Cabot Lodge, Mr. Dillon of the Treasury and Mr. McNamara, both of whom are Republicans working for a nemocratic Administration.

This book states that these members of CFR are interested in a world government based on a rapprochement between 4 the demogratic and the communist theories and that to accomplish this, these men have allowed the communists to take over for the past some twenty years; i.e., since the Second World War, when we emerged as the most powerful nation on earth.

ment

We are informed that the United Nations was CUKKESPORTENCE 27

organized for the purpose of this one-world government and that Alger Hiss, a proved communist, was one of its chief architects. Also, that in about fifteen years that this rapprochement will be about complete and that the "powers that be" will take over when it will be too late for the American public to do anything about it.

You as an avowed enemey of communism and as a strong protector of our government in this field are the only one to whom I may turn with confidence to ask if you know of this book and whether these facts are true? If would be willing to circulate this book - "None hare to Call it Treason," if the facts are authentic. The author claims all facts are documented.

History has showed that whenever a collective group of mensare chosen to govern a country that, . if there are communists included, the comunists inWariably take over, as in China. And are we ready for World government with the awesome power that the heads of it would possess? I could agree to a world government by a group of federated nations (as our own USA) but not such power in the hands of a few men.

Will you please relieve my anxiety orttell me the worst about the truth of this book, "None Dare" to Call it Treason." 

Gratefully yours. hg. Hy -s of 18 only

Att: J. Edgar Hoover Director, F.B.I.

Dear Mr. Hoover:

In the past few months I have been doing a great deal of reading. I have in the past, sad to say, been a "not too well informed voter." My reading has been on the Constitution, the Bill of Rights, Segregation, Integration, Letters of Thomas Jefferson, etc.... I have also read many conservative publications, including "None Dare Call It Treason". I am now part way through this book for the third time. Some of the statements in this book I have verified for myself; others I am unable to find the information. The point of this letter is: I am concerned, and not a little frightenedl Because I respect and trust you, I am turning to you for advise and information. Could you tell me: Is the situation as serious as presented? Is it too late too turn back? Can you give me the names of Communist front organizations and others that, while not communistic, follow the party line? And last/ what can I do?

I realize you are an extremely busy man, and are not by training a reviewer of books, but because of your strong anti-communist stand I am asking for your advise and help. Will you please take the time to answer me?

Thank-you for your consideration in this matter and God bless you for your many years of devoted service to our nation.

Dear Sir:

I have been reading a book titled "None Dare Call it Treason" by John A. Stormer. The book is very revealing and indicates some rather peculiar decisions being made on the part of high people in the government concerning some known security risks.

I would like to know some background on the author Mr. John A. Stormer and would like to know just how reliable this book is.

I realize that this request may be unusual and not entirely within the scope of your duties, but there is an important election coming up and I want to know facts and not half truths or biased opinions.

I am neither a Republican nor a Democrat and have voted both ways. I believe in a strong America and a strong defense against the World Communist Conspiracy. I know that there are reliable people in both parties and that there are not so-reliable people in both parties.

It is getting to the point now that you are about the only one in Washington that can be relied upon to give facts.

I am sending this letter registered and to be delivered to you personnally because I don't want some clerk to get this letter and send the answer.

For some background on me, I was born

I served months on active duty in the Army and

was separated as a 1st Lt. I am now a Captain
in the Army Reserve and
Georgia where I observed some officers from Indonesia being
trained.

Dear Mr. Hoover:

I am in the process of reading a pocket edition of a documentary entitled, "None Dare Call It Treason", by John A. Stormer. While I am just about half way through the book, I must confess that I am more than astounded at the wording and references made to the events surrounding our governmental direction.

I write to you, because it is my personal opinion that with the many things that have happened in our country's history, you are one person whom I know to be above reproach, and who has always strived to keep the American way of life up to its highest standards.

My question is this, "Can I accept what I read in this book as I accept my beliefs in the Holy Bible, (which I assure you are sincere), or must I again read between the lines and pick out the items which I think fit my personal daily living?" It is certainly difficult to believe that any of our Presidents would willingly, or unwillingly, allow this wonderful country to begin slipping one inch toward the hands of men whose only thought is to destroy what millions of hard working people have tried to declare as the, "Land of the Free".

Would you be good enough to offer an opinion in an effort to guide the thinking of a very concerned citizen.

Thank you very much for your consideration.

Dear Mr. Hoover,

I have just finished reading "None Dare Call It Treason" by Mr. John A. Stormer, and I'd like to know if the facts in this book are true. There is no way I can possibly check all his sources of information. If these things are all true, how could they possibly have been perpetrated without at least enough opposition from our legislative and judicial bodies to bring it to the attention of the public?

Our forefathers fought a great and courageous war to free us from the domination of England, and now the descendants of these brave men are allowing, and even encouraging, a slow, creeping, deadly disease called communism to take away the country they fought and died for. Where is our courage? Surely we love our country no less than they, and yet we allow this to happen. Must the communists attack us with nuclear weapons before we take a firm and unwavering stand against this menace? Why did we stand still and allow them to enslave millions people in Europe and Asia, and idiotically enough, in Cuba, only 90 miles from our shore? Could it have been that we no longer care? Dear God, please don't let that be the reason!/ Who is going to care if we don't?

Please tell me what can be done, what I can do to help stop communism in America.

Sincerely,

Dear Sirs:

mm

I call on you for assistance, so that I might be a better citizen. I have recently read a book entitled "NONE DARE CALL IT TREASON", writteh by John A. Stormer. This book is factually written, revealing subversive activities within our country by communist inspired agencies. It points out errors and intentional deciet within the highest offices in our land. The intent of this book is proclaimed to be a means of instructing the public on how communism infiltrates every phase of our society so that each person is better equipped to prevent its cancerous growth. In this respect I feel the book is of value. On the other hand its contents are repititiously degrading our most prominent statesmen, political parties, due process of the law, and government agencies and committies until I am not completley sure I can trust your expected reply for fear that you may also be an infiltrated communist agent. I feel a book so dynamic that it leaves the public so devided, .... so confused, ... so bewildered that they are no longer willing to trust the pillars-of-the-community, or the highest public offices is, or could be detrimental to our well being.

John A. Stormer, in preparation of this book, referenced every statement of fact, however I have neither the time nor the money to validate these references. And even though the references are correct I have no way of knowing that his text has not twisted the real facts to suit the writer. And how many readers do? Therefore in view of J. Edgar Hoover's fight to obstruct subversive activities, I feel your is the office to consult. I realise that each man must research, and learn, and think for himself, and then defend his beliefs. Therefore I need your help so that I may be a better supporter of Mr. Hoover's policies. Would you state the FBI's opinion of cited book and author.

I would appreciate any information available on this subject. I would also appreciate any information available regarding the John Birch society. A local candidate for Congress is campaigning on the strength of this book, and yet he is an admitted John Birch follower. I feel I need to know more about both before I can go to the polls and feel that I have sincerely supported the man I think bost qualified for office.

Thank you for your time and effort on my behalf.

I regret I am unable to be of help in this instance but trust you will understand the necessary reasons. It is hoped you will not infer either that we do or do not have data in our files relating to the book, "None Dare Call It Treason." In addition, my speeches become a matter of public record and are quoted from time to time. However, their use does not necessarily mean that this Bureau has either "cleared" or "not cleared" the manner in which they are employed.

It should be clearly understood that I do not intend for my remarks to refer to the groups and individuals you mentioned since I refrain from naming specific persons or organizations. I have, however, commented generally regarding the need for opposing communism rationally and intelligently. Our efforts to deal effectively with this subversive menace are not enhanced by those of the extreme right who tend to affix the communist label without intelligent analysis, or by those of the extreme left who endeavor to minimize the real danger of communism. In speaking of the extreme right, I refer to those individuals who would violate our laws to obtain their objectives. I consider them as lacking in true Americanism as those of the extreme left who would also violate our laws to achieve their

The best way to fight communism is to study it and thoroughly understand the true nature of its utterly false doctrines. But it is not enough to merely be against communism since our country will remain strong only so long as we support the ideals which make our form of government unique.

Enclosed is some literature which includes some suggestions all of us can use in combating the evil of communism. Perhaps you may wish to read my books, "Masters of Deceit" and "A Study of Communism." These were written in order to help readers gain an insight into the strategy and tactics of communists, both in this country and abroad. Copies may be available in your local library.

Dear Sirs: -

I have just finished reading a book whe's Title is "None Dare Calla it Treasen" Author is all John A. Stermer. Now what I desire to knew are the finished statements are articles set forth in this book fundamentally true and if they are what can the ordinary citizen do to prevent this or reverse this trend as our beloved country is fast going down that one way read if these statements I have read in this book are true.

If these statements are true I want to see that this book is just a as widely circulated as possible and intend to de all I can to obtain that end. I am a veteran of two wars # 1 & 2 and have been Pestmaster here in this Locale for the past seventeen yrs. an old man new but I hope and pray that my Grand Children will not be under the Athestic and Gedless Communistic regime as so many of our neighbors are now. I will apreciate your adviscencerning the this book.

Thanking you I beg to remain, Very respectfully yours,

Dear Sir:

I received the book entitled, "None Dare Call It Treason" under rather odd circumstances. A lady very highly reccommended it and insisted upon mailing it to me, insisting that I agree to pass it on to someone else. It is not for sale at any book store, she said, but only at the anti-communism book store. This made me wonder if this was a reputable book. The author is John A. Stormer who I understand is qualified to write such a book, but somehow—oh I don't know.

Could you help me? Have you heard of this book? I would certainly appreciate your help.

Dear Mr. Hoover,

I am most serious and anxious to have the opinion of someone (you) who I feel would really Know the purpose and real Aim behind John C Stormer's book None Dare Call it Treason. I was first sent one in mail, which I thought peculiar. I have been much against Goldwater - but the book was so pro-Goldwater and so anti-Democrat and seems to be now more of an instrument to divide citizens on issues. than the real fight against communism which I thought it meant to fight. Parties make no difference to me. It is what is best for our country I'm concerned about. My son & daughter, very much against Goldwater have just read the book and completely reversed their stand. Is that what the book is for? or is it in your openion a real fight against communism? I am truly concerned as are my children and neighbor's. Are we being decieved by the book? It does speak favorably of Senator Dodd, whom I admire and oh! I'd give alot to know Why? at last minute Dodd not named for Vice President? Can you tell me what difference between he and Johnson in regard to communism.

I know your <u>Masters of Deciet</u> was against our enemy communism. Is that the sole purpose of Stormer's book? Can you tell me anything about him?

Thank you so very kindly.

Sincerely,

Oh! If we could only know the truth

While I would like to be of assistance, the FBI is strictly an investigative agency of the Federal Government and neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. In view of the foregoing, I trust you will understand why I cannot comment as you suggested.

I have consistently emphasized that it is imperative that patriotic Americans make a determined effort to gain a broad knowledge of the objectives and operations of communism if we are to effectively resist its eroding influence. I have also stressed that we should combat this conspiracy wherever possible, making certain, however, that our opposition is careful, constructive and positive and that it is kept within due process of law. I am certain you will agree this is fundamental to liberty. Indiscriminately labeling as communists those who merely dissent or advocate unpopular or unorthodox views is divisive and unintelligent, and only makes the task of the professional investigator more difficult. This is not the time for name calling or publicity-seeking charges designed to confuse, divide and weaken our Nation. Such activity is especially dangerous when it is done by self-styled experts who are without valid credentials and without any access whatsoever to classified factual data regarding the inner workings of communism.

Dear Mr. Hoover:

I am writing in reference to a book that came into my hands through some close friends. The name of it is "None Dare Call It Treason," a paperback.

My friends insist that everything in this book is a fact. I read it; and to say that it disturbed me is an understatement. If it is not all true, how can it be allowed? On the other hand, if it is all fact, why is't something being done to correct the awful mess that we are in?

If it is possible, I would like to know your opinion on this book.

I understand that it has sold two and a half million copies, and many more than that will actually read it. Considering how many homes it gets into, I would say it is extremely important. After reading a work of this sort, it can only lessen one's confidence in our leaders and our country.

Any information on this book would be greatly appreciated.

Dear Mr. Hoover:

Too few people appreciate you, your men and the work you do for us. Too few of us who do appreciate your work, express our appreciation. May I take these few minutes of your time to thank you for all you have done for our country and it's freedom. I am gratefull. You are the only man I feel I can trust to give truthful answers concerning a most important set of questions. These questions came to mind while I was reading a copy of the book NONE DARE CALL IT TREASON by John A. Stormer (Liberty Bell Press.... Forissant, Missouri... P.O. Box 32).

Now the questions:

1. Have you read the book?

2. How much of it is true? (The suthor refers to congressional records as sources for his "Facts".) I believe the author but do not want to be misled.

3. If his story is true, my next question is ... WHY? Why have high government officials, even our past and present presidents have made concessions to the Communists and allowed known Communists to head various government agencies? Why are we being given to the enemy? Is it that those officials have been converted to the Marxist form of Communism or do they really think that pure and perfect Communism will work in a society where the people are not pure and perfect enough to make it work?

h/ "What's goin' on?"

5. Is the Communist threat as serious as Stormer intimates?

6. If Stormer's book is true, how much time do you think we have left with which to fight?

7. How do we fight? What can we do? As soon as we start talking down the internal communist threat, some people start labeling us rabble rousers and smear us so none will trust us or listen to truth. What can we do?

I am in the process of improving myself to be better able to care for my family financially, but what good will time spent on further education do if we can not use it? Would it be better to spend all my time in fighting the communist threat? What should I do??????

## OUR NATION'S CAPITOL

Original painting by AL METTEL
Reproduced in COLOR-ETCH

Since 1800 our nation's capitol has served as the meeting place for the United States Congress, with one interpuption from 1814 to 1819 to repair the ravages of a fire set by the British in the War of 1812.

Through the years, the capitolhas undergone some additions and remodelings. During the 1850's wings were added for the House of Representatives and the Senate, and the hemispherical cast-iron dome, rising some 287 feet above the ground, was finished in 1863. The central section of the building, however, is essentially as it was originally planned, and as it is shown in this striking reproduction of a watercolor painting by the late Al Mettel.

"Our Nation's Capitol" is not only the most inspiring structure dominating the Washington scene, it has become in the eyes of most Americans, the outward symbol of legislative bodies and it has been the architectural pattern for several of our state capitols. As reproduced here by the exciting new color-etch process on foil, it becomes significantly more inspiring—especially as a framed picture. CREATED BY BROWN & BIGELOW DIV. OF STANDARD PACKAGING CORP., U.S. A.4

## LET'S CHOOSE OUR LEADERS WISELY

In this day of changing economy and shifting world situation, it is more important than ever that we elect the best qualified to represent us in our nation's capital. To vote for the candidate of our choice is not only a right but a privilege. It is the responsibility of everyone to choose our leaders wisely.

Dear Sir:

I have just finished reading a paperback book entitled "None Dare Call It Treason" by John A. Stormer.

A person like myself reads so many different versions of so many different happenings, that it becomes hard to tell truth from fiction, or to tell a distorted book from a fair book. In our today's way of life, all authors seem to slant their writings to their own philosophies. My problem is that I cannot determine how much to believe of what I read because I do not know what is slanted, what is distorted, or what is a fair presentation of the facts. I, like everyone else, probably believe what I want to believe rather than what is the truth. In the case of this book, I would like someone to tell me their opinion.

This then brings me to the purpose of this letter. It is my personal opinion that you would be the best judge in the world as to the merits or the inaccuracies of this book. Therefore, I ask you to inform me of your opinion of the contents of this book. Could you please tell me, in your opinion: Is this the book of a crackpot, and therefore a book filled with half truths and distortions. Is the the

that can come from distorting facts and circumstances for political expediency? Or is this a reasonably fair presentation of the facts as you personally believe them?

In closing I will state that I do not know the author of this book; I am not running for any political office; I am only interested if this book is true or not true.

I will certainly appreciate any answer that you will give to my letter.

Dear Sir:

Recently I was given a book called "None Dare Call it) Treason" by John A. Stormer (Liberty Bell Book) which quotes you a number of times and giving the impression of your support to the line of idealism expressed. After reading the book, I felt it necessary to get more information on the author, the book and the Liberty Bell Press. The facts presented are either highly malicious or our country is in very bad shape - my concern is - which set of facts are correct?

Do you have any information on the above items? If so what is your opinion concerning the state of our internal defenses. Dear Mr. Hoover:

I just finished reading a book titled:
NONE DARE CALL IT TREASON by John A. StoRMER-published by the Liberty Bell Press. You are quoted liberally
in this book.

What I read shocked me greatly! My purpose in writing you is this:

- 1. The book appears to be very well documented
- 2. It reviews the steady but sure communest and socialist encrouchments on our liberty.
- The Author names people, places, times and quotes--and documents his sources liberally.
- 4. The question I have--after digesting this shocking book--is:

Does the author present an accurate, historic picture of communest advance--or
Does he present a fundamentally distorted, slanted picture made up of documented but not relevant facts?

Och 9/16/64 pel Och 9/16/64 OTP: fel me

Now I know you are not paid to review books. However, if what the book said is true--and the author quotes you, mentions Congressional investigations that dig up the most treasonous facts, and is unable to remove traitorous people from offices of trust, etc, etc if all this is true, I feel we are in a very dangerous state of affairs.

S-ATP

But I am an engineer-not a politician. I know my profession- I don't know politics. I read papers--but they distort & control news- if this book is correct. Who, or what do you believe? How can one check on such unexpected data as this book has compiled? Assuming all the book says is true (allowing for emotion) how do you fight this encrouchment? The Birch Society is called extreamist by the Democratic platform-yet it sounds like a group that is following your advice. Is this group a bunch of "NUTS"-or is it a reliable and dedicated organization.

Now, if I sound like a disinterested citizen, I guess I was--if what the book said is true. I've felt I was aware of current events, but the book makes me feel I've been asleep since the end of WWII.

Can you verify the book- and the status of organizations who want to fight the communist threat? I'd appreciate it.

Dear Sir:

John a. Stormer Hold

10-

I was recently given a copy of "None Dare Call It Treason" written by J. A. Stormer. As you probably know, the charges in this book against the administrations of our past five Presidents are quite damaging and if true, deserve the serious consideration of all citizens. There are, however, several disturbing aspects of the book which prevent me from giving it my wholehearted support.

Particularly disturbing is chapter 14 in which Stormer suggests several organizations which individuals may join to increase their anti-Communist effectiveness. Among these organizations is listed the John Birch Society, the Christian Crusade (Tulsa Okla.) and the Twentieth Century Reformation Hour (Collingswood, N.J.). I have been led to believe from various sources that the latter two organizations are definitly anti-Negro, anti-Catholic and anti-Jewish.

As a rather confused citizen who has the highest regard for your integrity and opinions, I am writing this letter in the hope that you can enlighten me as to your opinion of Stormer's book and the status of the above organizations.

Yours truly

Dear Mr. Hoover:

Is John Stormer's book, "None Dare Call It Treason," too radical to be taken seriously? I believed the book was a stimulant to induce people to write to their Congressman or Senator. Yet I have been called stupid and gullible for reading such "trash." Does the fact that the author mentions the John Birch Society eliminate all possibility of truth in his book?

Must we dismiss all articles and books of this type as diatribe, written to sway one to a particular political camp?

Is it wrong to give such books to friends and expect them to be intelligent enough to sift out the truth?

Is the American housewife limited to teaching her children patriotism and religion? I certainly am not selling this privilege short, but, isn't there more we can do? I only know that if there is something the private citizen can do, then I would like to do it.

Mr. Hoover:

I am just an ordinary citizen of these United States who, until recently, was more or less content to accept things as they were in this country. However, a month ago, I was given a book by a friend of mine which has enkindled in me the spirit of patriotism I once had when I served this country as a U.S. Marine. The book is entitled, "None Dare Call It Breason" and was written by John A. Stormer. Never have I read anything that has alarmed me as much as this book and never have I felt so concerned for this country of ours and for my own family.

For these reasons and because I have always had the greatest respect for you, Mr. Hoover, as a loyal American, I am taking this liberty of writing to you in hopes that you may be able to clarify my thinking and clear up any wrong interpretations which I may have read or heard as a result of this book.

Can the conclusions which Mr. Stormer arrives at regarding (1)Communists taking over this country - can these be true?

Is our government and the state department in the hands of Socialistic or Fabianistic leaders as he states ?

Are the communists taking over schools, newspapers, t.v., radio advertising companies, etc.?

If Mr. Stormer's book is true, why isn't anything being done (4) about these things ? I would sincerely appreciate any answers that you could render to me

regarding this controversial book and its mysterious, seemingly /authoritative author. I know that you are extremely busy, sir, and my requests may be more than you can handle without a great deal of hardship. However, as an irate American citizen interested in what's going on and what's going to happen to this country, I felt that it was my duty to write to you to see if I might not get your viewpoints on these subjects. I know that Mr. Stormer quotes you quite extensively in his book, however, I can not for the life of me figure out how these things are being done in this country, if they are being done, under the eyes of the President of the United States, the Secret Service and The F.B.T. For that reason I have decided to find out the truth and to pass it along to as many people as I have breath to talk to.

whatever advice you may be able to forward to me will be greatly appreciated not only by me but by other residents in my community who have appreciated not only by me but by out in the last state of the state o 100 1 nd ell //

Miss Holmes. Miss Gandy\_ J. Edgar Hoover, Chief, Federal Bureau of Investigation Washington, D.C.

Dear Mr. Hoover:

Five years ago my wife and I purchased many booklets dealing with Communism from the Government Printing Office. We studied these booklets in an effort to better understand Communist ideology and methods. What we learned made us determined to help prevent the spread of this unearthly and hideous philosophy.

We also undertook to follow closely the domestic and foreign policies of our Government. We have become increasingly disturbed and confused as we have tried to understand the reasoning behind the policies and the course of action adopted by the United States towards Nationalist China, U.S.S.R., Czechoslovakia, Tibet, Korea, Laos, Viet Nam, Berlin, Hungary, and Cuba. It appeared to us that those persons formulating our policies, foreign and domestic, had never read any of the booklets published by the Government on Communism or else did not believe them.

Now we are reading "None Dare Call it Treason" by John Stormer, and feel we must resolve some shocking questions which have haunted us for several years. Too many of the incidents documented in this book are those which we could not rationalize as being in the best interests of our country, when judged by what we had read about Communist methods and purposes. Therefore we must know:

1. Is this book considered an <u>unbiased</u> attempt to awaken the American people to the progress Communism has made in penetrating and subyverting our way of life?

2. Is it true that the many respected leaders named in this book have actually been <u>duped</u> and <u>manipulated</u> by Communist agents to the detrinent of our future freedom?

3. Is it true that the many widely respected organizations listed in this book have been <u>infiltrated</u> and <u>guided</u> by the Communist agents named?

4. Are we reading statements taken out of context, misquotations, misinterpretations, slanted opinions, and so-called "extreme right" literature, or can we believe what we read in this book?

We are asking for help so that we may either caution those who read "None Dare Call it Treason" not to take it seriously, or to photograge others to read it, and oppose with all their might the spread of Communism Here and throughout the world.

The avait your answering letter and frankly, we are afraid of what we will read in it. He hope you are able to express your true convictions in this matter.

Dear Sir:

I have just completed the reading of None Dare Call It Treason by John A. Stormer. It is published by the Liberty Bell Press of Florissant, Missouri. I am assuming that you have read this book as it is about the Communist Conspiracy for world domination.

The book is fully documented and you are cited as a source and an authority. Taken as a truthful expose, the book is frightening. Upon completing the reading I was filled with many questions for which I do not have answers.

What disturbs me is that there have been no outcrys from the recipients of the author's attacks. Many outstanding Americans fall under the accusers finger as well as many organizations and government agencies. If the author's statements are true, I can understand the silence, but the book contains page after page of astounding remarks backed up with documentation.

I am fully aware that with accurate documentation and language gymnastics it possible to substantiate that the "moon is made of green cheese."
Would you be kind enough to send me a reply to these questions?

Is the data on communist fromt organizations mentioned by the author accurate?

Were and are the individuals accused in this book as communists still employed by the government in the key positions to entire the draws a fine line between the communist and the Fabian social st.

My dear Mr. Hoover:

A few weeks ago a member of mine handed me a copy of the enclosed book None Dare Call It Treason with the comment - "Will you read this and let me know what you think of it?"

After reading it I have really become quite disturbed. Because of the nature of my work I was particularly frightened by Chapters 6, 7 and 8. Since it is so heavily documented, it seems to me there certainly must be some truth in it. And I dare say that if the man is only half right - we in America have genuine cause to be alarmed.

Among people who are familiar with the book there is a great deal of divided opinion. This confuses me all the more, since some of these people are my brethren in the ministry.

Since you have been in the middle of this whirlpool for more years than most of us, and are aware of the insidious methods of the Communist conspiracy, I wonder if you would give me an honest personal appraisal of this book - and please don't pull any punches. Your honest opinion will give me courage to either push this publication mightily - or soft-pedal it. An early reply would be very

Mr. J. Edgar Hoover Federal Bureau of Investigation Washington, D. C. Dear Mr. Hoover: Recently, as a reflective person, I have become aware that our country is drifting far to the left. My associates in the architectural world being mostly "liberal-intellectuals," I thought that perhaps I was "out of step" but have since had occasion to realize that maybe it is they, not I, who are mistaken in their ideas. A book was given me to read and consider, and after reading the book, I felt compelled to find out whether our situation is as this book "None Date Call It Treason" by John Astormer, presents it. There are, of course, many ways of proving or disproving the facts given, but it occurred to me that you would be the best source possible for getting an answer that I would accept as a certain authority. I realize that this request requires time on your part but I am asking this of you as my initial step toward becoming a good citizen, having seen that whether we like it or not, we sooner or later must crusade for our beliefs. Gentlemen:

by John Stormer,

Recently I have been reading a book by John Stormer, entitled None Dare Call It Treason. In this book, the author refers to the National Council of Churches and I quote:

"The National Council of Churches, its subordinate organizations, and the leaders of many of its affiliated denominations and their publications consistently parallel or follow the Communist Party line, as exposed by J. Edgar Hoover." And the reference given is Hearings, Special Committee on Un-American Activities, 78th Cong., Appendix, Part IX, page 261-6. Please send me a copy of this portion, if available, or Jerify.

These statements follow also: "The collaboration is particularly evident on such issues as disarmament, recognition of Red China and its admission to the United Nations, opposition to the committees of Congress which investigate communist infiltration, subversion, and agitation, anti-anti-communism, and in the promotion of visits to America by communist churchmen from behind the Iron Curtain.". Page 127.

Please send copy, tear sheet, or verify the following:

"Richard Arens, staff director of the House Committee on Un-American Activities, testified during the hearings as to the evidence of communist activity in the religious field. He said:

'Thus far of the leadership of the National Council of Churches of Christ in America, we have found over 100 persons in leadership capacity with either Communist-front records or records of service to Communist causes. The aggregate affiliations of the leadership, instead of being in the hundreds as first indicated, is now, according to the latest count, into the thousands, and we have yet to complete our check, which would certainly suggest, on the basis of authoritative sources of this committee, that the statement that the recipies infiltration of felllow travelers in churches and educational institutions is a complete understatement.'

And thank you for the 1965 Appropriation reports which requested.

Just one thing more - May I have about 3 copies of What Young People Should Know About Communism." Thank you.

Dear Mr. Hoover:

Classroom Teachers Association. The program committee asked me to review the chapter of "None Dare Call It Treason," that deals with education. None Dare Call It Treason is by John A. Stormer, published by Liberty Bell Press, Florissant, Missouri, P.O. Box 32. I would not do so without the Superintendents sanction. Three teachers ask him about it. He believes this and information put out by the Methodist Laymen of North Hollywood, P.O. Box 323, North Hollywood, California, is Communist propaganda for the purpose of dividing the church and attacking our educational system. He may be wise not to have it discussed, but is he right? I believed None Dare Call It Treason, to be true because of the references in footnotes.

If our superintendent is right, I do not want to continue to recommend this book for reading. If it is true, what can teachers do to help restore America's freedom through education? I would like to have a classroom Teachers program to help our own school progress toward freedom. The Communists have caused such distrust that know not what to believe. I would like to prepare a constructive program, or rather recommend such a program to our program committee.

Sincerely,

(B. S., M. A.,)

Dear Sir:

I have recently come across a paper back book entitled "NONE DARE CALL IT TREASON" whose author is a young republican by the name of John Stormer. Although I have merely scratched the surface of this book, I find myself in a state of complete shock and utter amazement concerning the facts disclosed in these first 33 pages. I note that in his book he, from time to time, has quoted statements which you have made, one of which has in fact fostered the idea of writing this letter to you. He has quoted you as saying:

"Attributing every adversity to Communism is not only irrational, but contributes to hysteria and fosters groundless fears. Communism is, indeed our paramount adversary, and it leans on its credo of invincibility to accomplish its ends. The way to fight it is to study it, understand it and discover whatcan be done about it. This cannot be done by dawdling at the spring of knowledge; it can only be accomplished by dipping into thoughtful, reliable, and authoritative sourses of information."

Than Sir, my reason for contacting you is those two descriptive adjective in your last sentence, reliable and authoritative. I know of no other thuman being who can better fit that description than you, Mr. Hoover, when it comes to the Subject of Communism.

I therefore request that if it is at all possible that your give me your opinion on this book and its validity and whether or not you would think it adviseable to read all of the recommended books which Mr. Stormer suggests so as to obtain a more comprehensive understanding, of the threat of Communism.

Dear Sir:

I have just finished reading "None Dare Call It Treason" by John A. Stormer, published by Liberty Bell Press, P.O. Box 32, Florissant, Mo.

This is a frightening book. If it represents factual information, intelligently interpreted, it is doubly frightening.

The American people have been repeatedly urged by leading national figures, including you, to inform themselves on matters connected with the contents of this book.

I would like very much to know if, in your opinion, the above named book is a reliable and authoritative source of information on the subject matter with which it deals.

I sincerely ask your consideration of this request. Many of us want to know the truth - but we want to be sure our sources actually represent the truth. Turning to men such as you is the only way I know.

Dear Mr. Hoover:

A highly respected friend of mine recently gave me a book entitled "None Dare Call It Treason" written by Stormer. I have been deeply shocked by what I have read in this book.

Last evening, we had visitors in our home and the above book was mentioned. I understand that one of the well known History Teachers in one of our High Schools deeply conderns this book as a compilation of exaggerated half-truths and that it is not worthy of distribution.

I notice in this same book that you are quoted in an address given in September 1962 before the General Board of Education of the Methodist Church, as follows: "The way to fight it (Communism) is to study it, understand it and discover what cap be done about it. This cannot be achieved by dwadling in the spring of knowledge, it can only be accomplished by dipping into thoughtful, reliable and authoritative sources of information."

At age seventy, I don't have too much time to dis cover what is reliable and authoritative on this subject but I would very much like to learn because I happen to have three sons and eight grandchildren who I trust will learn the truth about this subject.

Will you please advise me of your personal opi of "None Dare Call It Treason" and will you also please suggest some other reliable material or publications which I cam secure on this subject.

Dear Mr. Hoover:

We have recently read a book entitled, NONE DARE CALL IT TREASON, by John A. Stormer, with the result that we are very concerned as Americans. We feel that we cannot in conscience just sit back and not do anything to correct the extent of the Communistic influence in our State Department. With a feeling of alarm about the accusations on Communism which Mr. Stormer puts forth, we are writing you, as the Director of the Federal Bureau of Investigation, in hopes that you can give us some answers as to the validity or falsity of Mr. Stormer's accusations. We feel that you are in a position to give us a non-political answer in regard to this problem.

If his accusations are true, we wish as citizens of this great country to encourage you to investigate these to the fullest. On the other hand, if you think these accusations to be false, please put our minds at ease by telling us so.

Moreover, would it be advisable to write to our President and the men who represent us in Washington in regard, once again, to this very important matter? If you think so, we would be very willing to do so.

In conclusion, we wish to thank you and your associates for your untiring efforts against Communism. Wishing you continue success in the fight against Communism, we are eagerly awaiting an answer to this letter.

Dear Mr. Hoover: Mr. Trotter\_

> A short time ago, a friend of mine sent me a copy of "None Dare Call It Treason" by John Stormer and I have read this book and was appalled at the documented incidents of what appear to be almost treasonable activity by persons in the State Department and other areas of the Government.

> Jam sure that you have read this book or are familiar with its contents of the material that has been used to document the statements.

Livas sufficiently concerned and alarmed about the material presented in the book that I have distributed numerous copies to friends and associates offmine. Some of these people refuse to believe the facts as presented or feel the facts are in some way distorted. Because of the seriousness of the charges presented and your national reputation for integrity and unfearing honesty, I would greatly appreciate your comments and conclusions regarding the truthfulness and accuracy of this book.

PERSONAL

Dear Mr. Hoover:

I am enclosing herewith a copy of a book entitled "None Dare Call It Treason" which I have just finished reading. The book appears to me to be documented and completely nonpartition in its presentation of the shocking infiltration of our government schools, churches, news media and other opinion forming and key paspects of our national life. I am sure that you have already read this book as it uses extensive quotes from your writings and speeches in the book itself; however, in the event that you have not had an opportunity to read same, I am enclosing this copy for your information.

The book has left a deep impression upon me and has caused me to realize that each of us must do everything in his power to stop this shocking state of events which threatens not only our freedom but our very existence. I have purchased approxi-'mateTy 100 copies of this book and plan to place them in the hands of various legislators and public officials, including our local school board, however, before I do so I would like to assure myself that the book is factual and that the conclusions drawn therein are at least logical. I have endeavored to study other wrighings including your own, in line with this problem and have concluded as I stated before, that the book is factual. However, # am wondering, if I could ask your personal opinion concerning same. possible for you to give me an evaluation of this book I will greatly appreciate it. Also, I would like to know if I can use any evaluation which you may give in forwarding copies of the book to other persons or if you would prefer or be required to not be quoted with reference to the matter. Your wishes will of course, be strictly adhered to 62 - 109 421-

One further question, if it is possible for you to lanswer same under the regulations governing your position. I believe that it was your advice if the book rightly quotes you, that the best method of fighting commission is to inform ourselves

of the facts and to join with other like-minded individuals to take effective group action. I certainly agree with this statement and wish to join an organization dedicated to the destruction of communism in this country and abroad. However, since so many organizations with patriotic slogans espousing principles which are as American as George Washington have proved to be communist front organizations, I am sure many Americans have been reluctant to join any such organizations. I am wondering if you might be able to suggest to me the most effective of these organizations or any other method by which I might combat this menace to our society. If so, your suggestions will be sincerely appreciated and followed. I am almost certain that the John Birch Society is an effective anti-communist organization and I am wondering if you could either confirm or deny this.

I know that your services to this nation have been recognized by every American; however, I would like to add my own "Thank You" to the great chorus of others for your outstanding performance in keeping this nation free and law abiding thereby not only protecting this generation but my children and their children in the future. Dear Mr. Hoover,

I don't know if you are in the habit of answering letters such as mine, or indeed if this will; reach you.

I have just recently become interested in learning all I can about communism, subversion, foreign affairs etc. Besides many government documents, I have read your "Masters of Deciet," Skousen's "Naked Communist", and "None Dare Call it Treason" by John Stormer. Although all three books have stirred my interest tremendously, it is the latter book about which I write.

I should very much like to know your opinion about Mr. Stormer's book, if you have read it. Is our present government really so riddled with pro-communists? Is the Council on Foreign Relations as influential as Mr. Stormer declares? Is it, the Americans for Democratic Action, and the United Nations', staff really so dominated by communist sympathizers? Do the Communists in fact still hold 400 Americans prisoner from the Korean War? What do you think about the John Birch Society? Is it, in your opinion, a worthwhile and truly anti-communist organization?

Any comments or information whatsoever that you might deem pertinant will be gratefully appreciated. The reading I have done of late has affected me deeply. As a housewife, and mother of two pre-school youngsters, I don't know what I can do to concretely fight communism, but the idea of a possible communist America for my children makes me physically ill. I do hope you will be able to answer my letter.
